

# Objectives

The Green Generations partnership aims at:

- 🎯 applying intergenerational learning to combat climate change
- 🎯 offering teacher training and innovative educational resources on climate change education
- 🎯 developing students green skills combined with 21st century competences
- 🎯 creating an online multistakeholder hub for promoting intergenerational learning

# Results

- 🎯 Teachers' Training Package for building teachers' skills towards intergenerational climate change education
- 🎯 GreenGenerations Curriculum - innovative lesson plans and educational activities
- 🎯 An interactive educational platform where teachers, parents and students can exchange environmentally friendly knowledge and experiences
